NATIONAL FOREWORD

This Indian Standard (Part 8) which is identical with ISO 8782-8 : 2000 'Safety, protective and occupational footwear for professional use — Part 8 : Additional specifications for occupational footwear' issued by the International Organization for Standardization (ISO) was adopted by the Bureau of Indian Standards on the recommendations of the Footwear Sectional Committee and approval of the Chemical Division Council.

The text of ISO Standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words 'International Standard' appear referring to this standard, they should be read as 'Indian Standard'
- b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

CROSS REFERENCES

In this adopted standard reference appears to certain International Standards for which Indian Standards also exist. The corresponding Indian Standards, which are to be substituted in their places are listed below along with their degree of equivalence for the editions indicated:

<i>International Standard</i>	<i>Corresponding Indian Standard</i>	<i>Degree of Equivalence</i>
ISO 8782-1 : 1998	IS 15298 (Part 1) : 2002 Safety, protective and occupational footwear for professional use: Part 1 Requirements and test methods	Identical
ISO 8782-4 : 1998	IS 15298 (Part 4) : 2002 Safety, protective and occupational footwear for professional use: Part 4 Specification for occupational footwear	do
ISO 8782-5 : 2000	IS 15298 (Part 5) : 2004 Safety, protective and occupational footwear for professional use: Part 5 Additional requirements and test methods	do

For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS 2 : 1960 'Rules for rounding off numerical values (revised)'. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

FOOTWEAR**

(*Second cover page, para 3*) — Insert the following para after para 3:

As decided by the committee, additional requirements of marking are given in National Annex A. These additional requirements are part of the standard.

(*Page 2, National Annex*) — Insert the following Annex A at the end of the text:

'NATIONAL ANNEX A

A-1 BIS CERTIFICATION MARKING

A-1.1 The product may also be marked with the Standard Mark.

A-1.1.1 The use of the Standard Mark is governed by the provisions of *Bureau of Indian Standards Act, 1986* and the Rules and Regulations made thereunder. The details of conditions under which the licence for the use of Standard Mark may be granted to manufacturers or producers may be obtained from the Bureau of Indian Standards.'

Introduction

This part of ISO 8782 extends the scope of ISO 8782-4 by specifying further properties which may be needed in safety footwear for professional use. It refers to ISO 8782-4 for the basic requirements which are mandatory for all items of safety footwear and, if desired, allows other combinations of properties to be specified by the selection of appropriate optional requirements from Table 3 of ISO 8782-4:1998.

Indian Standard
**SAFETY, PROTECTIVE AND OCCUPATIONAL
FOOTWEAR FOR PROFESSIONAL USE**
PART 8 ADDITIONAL SPECIFICATION FOR OCCUPATIONAL FOOTWEAR

1 Scope

This part of ISO 8782 specifies, by reference to ISO 8782-1 and ISO 8782-5 additional requirements for occupational footwear, relating to water resistance.

Basic and further optional requirements for occupational footwear are given in ISO 8782-4.

2 Normative references

The following normative documents contain provisions which, through reference in this text, constitute provisions of this part of ISO 8782. For dated references, subsequent amendments to, or revisions of, any of these publications do not apply. However, parties to agreements based on this part of ISO 8782 are encouraged to investigate the possibility of applying the most recent editions of the normative documents indicated below. For undated references, the latest edition of the normative document referred to applies. Members of ISO and IEC maintain registers of currently valid International Standards.

ISO 8782-1:1998, *Safety, protective and occupational footwear for professional use — Part 1: Requirements and test methods*.

ISO 8782-4:1998, *Safety, protective and occupational footwear for professional use — Part 4: Specification for occupational footwear*.

ISO 8782-5:1999, *Safety, protective and occupational footwear for professional use — Part 5: Additional requirements and test methods*.

3 Terms and definitions

For the purposes of this part of ISO 8782, the terms and definitions given in ISO 8782-1 and ISO 8782-4 apply.

4 Classification

Footwear shall be classified in accordance with Table 1 of ISO 8782-4:1998.

5 Occupational footwear with resistance to water

5.1 Performance

Footwear shall comply with the basic requirements specified in Table 2 of ISO 8782-4:1998 and with the requirement given in Table 1 of this part of ISO 8782.

Table 1 — Occupational footwear with resistance to water

Requirement	Appropriate clause in ISO 8782-5:1999	Classification 1 ^a
Resistance to water	4.2	X
^a X means that the occupational footwear shall comply with the requirement.		

5.2 Marking

Each item of occupational footwear shall be clearly and permanently marked, for example by embossing or branding, as specified in clause 6 of ISO 8782-4:1998, and with the symbol WR.

Bureau of Indian Standards

BIS is a statutory institution established under the *Bureau of Indian Standards Act*, 1986 to promote harmonious development of the activities of standardization, marking and quality certification of goods and attending to connected matters in the country.

Copyright

BIS has the copyright of all its publications. No part of these publications may be reproduced in any form without the prior permission in writing of BIS. This does not preclude the free use, in the course of implementing the standard, of necessary details, such as symbols and sizes, type or grade designations. Enquiries relating to copyright be addressed to the Director (Publications), BIS.

Review of Indian Standards

Amendments are issued to standards as the need arises on the basis of comments. Standards are also reviewed periodically; a standard along with amendments is reaffirmed when such review indicates that no changes are needed; if the review indicates that changes are needed, it is taken up for revision. Users of Indian Standards should ascertain that they are in possession of the latest amendments or edition by referring to the latest issue of 'BIS Catalogue' and 'Standards : Monthly Additions'.

This Indian Standard has been developed from Doc : No. CHD 19(1117).
